Project: Sustainable Settlements
Project management: Ipam – Amazon Environmental Research Institute

**IMPACT**

**Monitoring and control (2)**
People activities in Western Pará that are suitable for environmental legislation

**OUTPUT**
Upgrade of Usage Plans (PU) of 350 family farm production units

**OUTCOME**
Expanded access of settlements to environmental regularization

**IMPACT**

**Land Use Planning (3)**
Area of Western Pará is territorially organized

**OUTPUT**
Conduction of georeferencing and registration of 350 family farm production units

**OUTCOME**
Expanded land areas with regular land situation around BR-230 highway

**IMPACT**

**Sustainable Production Component (1)**
Activities that maintain the forest standing are economically attractive in settlements of Western Pará

**OUTPUT**
Payment for environmental services (PSA) for the 350 families

**OUTCOME**
Identification and development of economic activities for the sustainable use of the forest and biodiversity in settlements

**IMPACT**

**Monitoring and control (2)**
People activities in Western Pará that are suitable for environmental legislation

**OUTPUT**
Implementation of demonstration projects directed toward community forest management in 3 settlements

**OUTCOME**
Expansion of the added value of the settlement chains of agroforestry products

**IMPACT**

**Land Use Planning (3)**
Area of Western Pará is territorially organized

**OUTPUT**
Development of business plans for marketing of products from 20 community organizations

**OUTCOME**
Expansion of managerial and technical capabilities for the implementation of agroforestry systems, forest management activities, and agroextractive production in settlements

**IMPACT**

**Sustainable Production Component (1)**
Activities that maintain the forest standing are economically attractive in settlements of Western Pará

**OUTPUT**
Restructuring of the governance chains of the settlements (co-management)

**OUTCOME**
Implementation of agroforestry product processing structures in 20 community organizations

**IMPACT**

**Monitoring and control (2)**
People activities in Western Pará that are suitable for environmental legislation

**OUTPUT**
Strengthening of settlement networks and dissemination of knowledge acquired from the project

**OUTCOME**
Implementation of agroforestry product processing structures in 20 community organizations
